

RACQUET SPECS

MODEL / DESCRIPTION	FEATURES INCLUDED	LENGTH	HEAD SIZE	POWER LEVEL	FLEX	BALANCE	FRAME CROSS SECTION MM (UNSTRUNG)	TENSION	WEIGHT	STRING MATERIAL	STRING PATTERN	GRIP	GRIP SIZES
EX03 Black	EX03-Ports, Power Plugs, DPR, Triple Threat Weighting System, Air + Comfort Handle, Power Scoop, Long Body	22in	106	4000	Super Stiff	1 Point Head Heavy	03 Super Widebody 23-26 Taper	170-180g	33+/5	TTI with GraphiteExtreme	Lightning DPR or Par Ring 8 16x19	DP or Vision	SS/SS/XS
EX03 Copper	EX03-Ports, Power Plugs, DPR, Triple Threat Weighting System, Air + Comfort Handle, Power Scoop, Long Body	22in	106	4000	Super Stiff	1 Point Head Light	03 Super Widebody 23-26 Taper	190-200g	33+/5	TTI with GraphiteExtreme	Lightning DPR or Par Ring 8 16x19	DP or Vision	SS/SS/XS
03 Speedport Red	SP O-Ports, Power Plugs, DPR, Triple Threat Weighting System, Air + Comfort Handle, Power Scoop, Long Body	22in	106	3400-3700	Super Stiff	Even	03 Super Widebody 20-26 Taper	170-186g	33+/5	TTI with GraphiteExtreme	Premier Power DPR 14x17	Vision	SS/XS
03 Speedport Pink Camo	SP O-Ports, Power Plugs, DPR, Triple Threat Weighting System, Air + Comfort Handle, Power Scoop, Long Body	22in	106	3400-3700	Super Stiff	Even	03 Super Widebody 20-26 Taper	170-186g	33+/5	TTI with GraphiteExtreme	Premier Power DPR 14x17	Vision	SS/XS
Air Response	FPO	22in	106	3200-3400	Stiff	Even	03 Super Widebody 23 SB	185-191g	30+/4	TTI with Graphite Composite	Premier Power Power Ring 16x19	Vision	SS/XS
03 White	O-Ports, Power Plugs, DPR, Triple Threat Weighting System, Air + Comfort Handle, Power Scoop, Long Body	22in	106	3200-3400	Super Stiff	HL	03 Super Widebody 23-26 Taper	170-176g	33+/5	TTI with GraphiteExtreme	Lightning DPR 14x17	Vision	SS/XS
03 Black	O-Ports, Power Plugs, Power Ring 8, Triple Threat Weighting System, Air + Comfort Handle, Power Scoop, Long Body	22in	106	3000	Super Stiff	Even	03 Super Widebody 23-26 Taper	175g	30+/4	TTI with GraphiteExtreme	Lightning Power Ring 8 16x19	Vision	SS/XS
03 RG	O-Ports, Power Plugs, Power Ring 8, Triple Threat Weighting System, Air + Comfort Handle, Power Scoop, Long Body	22in	106	2750-2950	Super Stiff	HL	03 Widebody 20-24 Taper	165-171g	30+/4	TTI with GraphiteExtreme	Lightning Power Ring 8 16x19	Vision	SS/XS
03 Hybrid Rip	FPO	22in	FPO	FPO	Stiff	FPO	FPO	FPO	28+/4	TTI Graphite Composite	Synthetic Gut FPO	Synthetic	SS/XS
Air O Bolt	O-Ports, Power Ring, Triple Threat Weighting System, Long Body	22in	105	1900	Stiff	FPO	Air O Widebody 22mm Straight Beam	195g	28+/4	TTI Graphite Composite	Synthetic Gut Power Ring 16x19	Synthetic	SS
Power Ring Freak	Power Ring, Power Line, F3 Stabilizer, Long Body	22in	105	1000	Stiff	FPO	Widebody 22 Straight Beam	195g	28+/4	Aerolite Alloy with F3/Power Line	Synthetic Gut Power Ring 16x18	Synthetic	SSS/XS
Power Fan Ripstick	Power Fan, Power Line, F3 Stabilizer	22in	105	1300	Stiff	FPO	Widebody 22 Straight Beam	195g	28+/4	Aerolite Alloy	Synthetic Gut Power Fan 16x18	FPO	FPO
Power Pack Plus	Power Fan, F3 Stabilizer, Long Body	22in	104	900	Stiff	FPO	Widebody 21.5 Straight Beam	200g	28+/4	Aerolite Alloy/Titanium with F3	Synthetic Gut Power Fan 16x19	Synthetic	SS

RACQUET INNOVATIONS

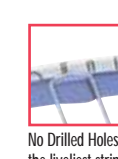

POWER BOOSTERS

Factor Swing Speed!
O-ports reduce aerodynamic drag, creating a fast and maneuverable frame with a lightweight feel for accelerated swing speeds, enabling players to reach more shots and rip more winners than ever before.

Sweet Zone Power!
Ektelon replaced traditional pin-stripped holes with revolutionary giant O-ports, providing total string freedom for a livelier response across the entire string bed. This increases the sweet spot, creating a Sweet Zone, which means ultimate power on every shot!

Direct Contact™
No Drilled Holes. **MORE POWER.** Ektelon's exclusive PowerLoc™ construction creates Direct Contact™ string channels with No Drilled Holes or grummetts. Direct Contact™ provides the liveliest string bed ever for unprecedented power.

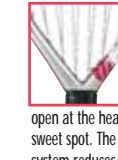

Power Ring™ 8
The evolution of Power Ring continues with Power Ring 8. By developing a throat area with 8 Power Rings, each main string wraps around its own independent Power Ring. This allows maximum string resiliency, ultimate shot control and re-stringing is a breeze!

Double Power Ring
Larger Main Strings for Ultimate Power. Main strings wrap around two Power Rings in the throat maximizing main string length for greater power. Crommelles throat increases frame durability and stiffness.

Power Ring™ Advanced Power, Extra Stiffness.
An inverted "ring" in the throat of the frame creates longer main strings of uniform length for enhanced power across the entire string bed. Crommelles throat increases frame durability and stiffness.

PowerFan™
Greater Power, Larger Sweet Spot. Innovative racquet design features increased string length and a unique string pattern that's more open at the head for more power and an expanded sweet spot. The patented Double Barrel Grummet system reduces frame holes for maximum stiffness and strength.

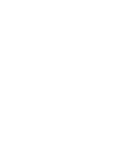

Power Plugs
Inserting Power Plugs into the O-ports of the frame adds extra weight in key locations. This changes the weight, balance, and stability of the frame. Greater power can be achieved by adding weight.

SWEET SPOT & STABILITY OPTIMIZERS

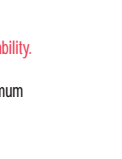

Power Line™
Lighter Frame, Quicker Game. A reinforced beam with grooves on the inside surface of the racquet frame increases frame strength, while providing more power in a lighter weight racquet.

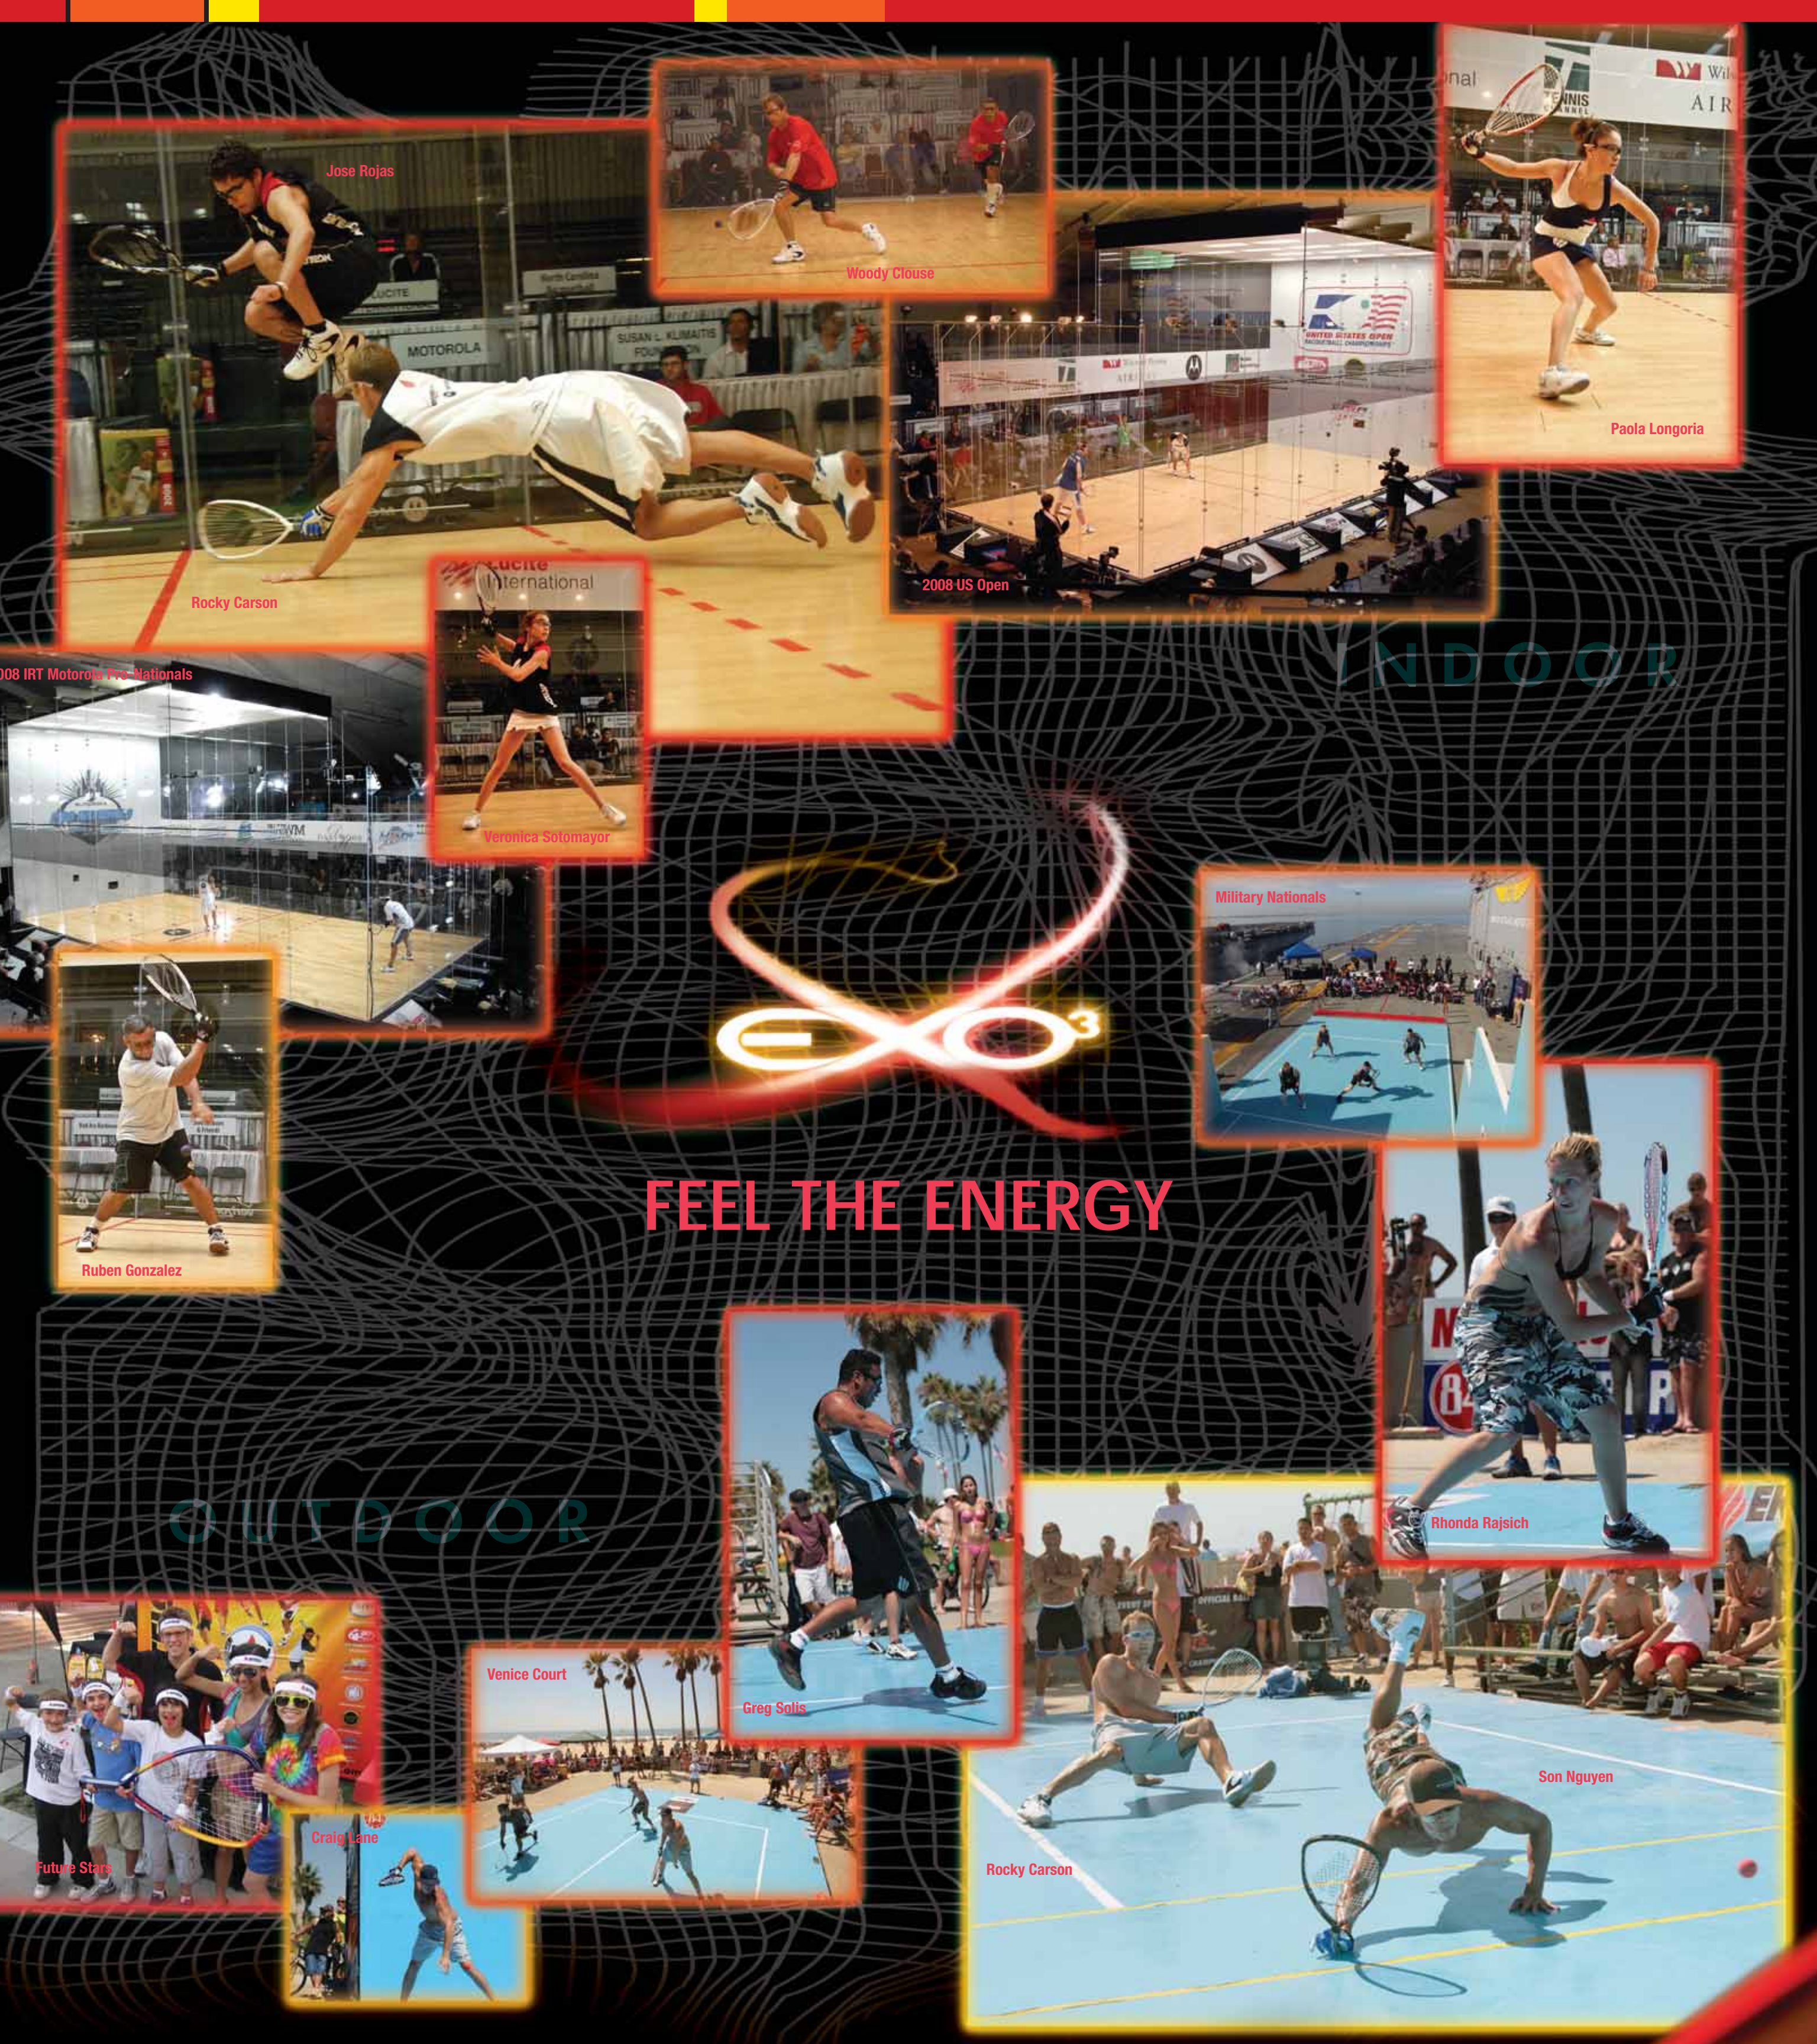

Triple Threat™
Powerful Precision, Increased Control. Woven Kevlar, copper, and carbon is placed in three critical racquet locations: 10 o'clock, 2 o'clock, and the bottom of the handle. A larger sweet spot is created in every direction. As a result, arm shock is reduced, power and control are increased, and stability is optimized.

F3 Stabilizer
Expanded Sweet Spot, Ultimate Stability. Optimal weight distribution system provides perfect balance for maximum stability and sweet spot.

Triple Threat™
Powerful Precision, Increased Control. Woven Kevlar, copper, and carbon is placed in three critical racquet locations: 10 o'clock, 2 o'clock, and the bottom of the handle. A larger sweet spot is created in every direction. As a result, arm shock is reduced, power and control are increased, and stability is optimized.

FEEL THE ENERGY

Bridging The Gap
Between Ultimate
Power And
Extraordinary Comfort.

Ektelon Has Discovered
A New Source Of Energy.
